1. INTRODUCTION

The introduction section is for information purposes only. It must not be included in the annual report of the department, please refer to the specimen for the information to be presented in the annual report.

1.1. Purpose of annual reports

Annual reports are an integral part of national and provincial departments' reporting. The achievements, performance information, governance, human resources information and financial information for each reporting period are reported in the annual report.

The information reported on in the annual report includes the actual achievements for the reporting period in relation to the planned targets and budgets as published in the strategic plan, annual performance plan, estimates of national expenditure, estimates of provincial revenue and expenditure, the adjusted estimates of national expenditure and the adjusted estimates of provincial revenue and expenditure.

Annual reports are tabled in Parliament and the relevant Provincial Legislatures and are public documents.

The publication of financial and non-financial information of departments promotes accountability and transparency on the efficiency and effectiveness of government departments. This will improve trust and confidence in government service delivery. The reported information must be accurate and balanced, reporting the successes and explaining the shortcomings.

Ultimately a quality annual report should:

- comply with statutory and policy requirements and
- present information (both positive and negative) in an understandable and concise manner.

1.2. Purpose of the guide

The guide provides guidance on the **non-financial information** requirements of the annual report i.e.: all sections of the annual report except the Annual Financial Statements. The Annual Financial Statements (AFS) section is dealt with in a separate guide, namely the *Departmental Financial Reporting Framework Guide* that can be obtained from the Office of the Accountant-General (OAG) website.

The annual report guide is supplemented by a specimen annual report, which must be used in the preparation of the annual report.

Adherence to the format of this guide will enhance departments' coverage of all aspects of their activities and will promote ease of reference and comparison for users of the annual report.

1.3. How to use the guide

Section 1, Introduction, provides guidance and clarity with regard to legislation that governs annual reports and general information about annual reports.

Section 2, Annual report, provides departments with the format of the annual report, structure, details and information that departments must comply with in their annual reports. Each heading that should be included in the annual report has 2 sub-headings in the guide. The 1st sub-heading is the “guideline” which provides the guidance on the information to be reported on. The 2nd sub-heading is the “Format of disclosure” which indicates how the information must be presented in the annual report.

Section 3, Annexures, contains the format of letters and reports that must be completed, signed and published in the department’s annual report. A specimen of the annual report of a department is also included, as Annexure C.

1.4. Other matters to consider when applying the guide

The following factors should be considered when applying the guide:

- The information contained in section 1: Introduction must not be included in the annual report.
- It is imperative that the financial information contained in the annual report corresponds with the financial information in the audited annual financial statements.
- Additional relevant sections can be incorporated into the annual report at the Department’s discretion.
- Pictures, graphs and diagrams may be utilised to highlight and improve understanding of information, though excessive use should be avoided.
- The sequence of information in this guide must not be changed.
- Reporting requirements that do not apply to a particular department may be omitted from the annual report, except for Part D – Human Resource Information.
- Caution must be exercised by departments concerning the costs of producing the annual reports

1.5. Documents to be used in preparing the annual report

2.4 Part B: Performance Information

Guideline

This section of the annual report provides key performance information highlighting the department's service delivery achievements.

Performance information is critical to effective management, planning, budgeting, implementation, monitoring, evaluation and reporting of the department's impacts and outcomes. Performance information must be available to managers at each stage of the planning, budgeting and reporting cycle to enable them to adopt a results-based approach to managing service delivery. This approach emphasises planning and managing with a focus on desired results, and managing inputs, activities and outputs to achieve these results.

Measuring performance:

- ensures that policy, planning, budgeting and reporting are aligned in order to achieve improved service delivery;
- indicates how well a department is meeting its outcomes and impacts, and which policies and processes are working. Making the best use of available data and knowledge to track and report on performance is crucial for improving the execution of government's mandate; and
- facilitates effective accountability, enabling Parliament, Provincial Legislatures, members of the public and other interested parties to track progress of government activities, identify the scope for improvement and hold government to account.

Departments must strive for the alignment between the impacts and outcomes in the Strategic Plan, and associated programme /sub-programme outputs, output indicators and targets in the Annual Performance Plans, and Estimates of Expenditure and Adjusted Estimates of Expenditure.

The performance information must indicate the achievements against targets for performance indicators as identified in the Strategic Plans, Annual Performance Plans, Estimates of Expenditure and Adjusted Estimates of Expenditure.

2.4.1 Auditor-General's Report: Predetermined Objectives

Guideline

The AGSA currently performs certain audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being reported under the *Predetermined Objectives* heading in the *Report on other legal and regulatory requirements* section of the auditor's report.

For a user of the annual report, reading the findings of the work performed by the AGSA on the performance information will be more useful and relevant if it is read with the reporting of the performance information in the annual report. Therefore, the user's attention must be drawn to the AGSA's audit findings on the audit of the performance information.

Format of disclosure

Reference must be made to the paragraph in the AGSA's report (Reporting on other legal and Regulatory requirements) published as Part F (Annual Financial Statements) of the department's annual report.

2.4.2 Overview of Departmental Performance

This section must cover the performance of the department in its entirety for each of the headings detailed below. Information should not be discussed at a programme level, as this is covered at a later stage as a separate section “programme performance”.

Service delivery environment

Guideline

To assist users of the annual report to gain an understanding of the challenges, successes and other factors that might impact on a department’s performance, it is necessary to provide the user with an overview of the context and environment within which the department operated to implement its strategic plan and annual performance plan.

The department should seek to give a balanced overview of the service delivery environment in which it operated during the reporting period under review and not merely focus on factors that might be offered as ‘mitigating circumstances’ to support the department’s delivery record.

The overview should include:

- commentary on services delivered directly to the public;
- commentary on challenges encountered by the department when providing the relevant services, and the corrective steps to be taken in dealing with such challenges; and
- a description of any significant developments, external to the department, that may have impacted either on the demand for the department’s services or on the department’s ability to deliver those services.

Format of disclosure

This information must be provided in a narrative form.

Service Delivery Improvement Plan

Guideline

In accordance with the Public Service Regulations, Chapter 1, Part III C, all departments are required to develop a Service Delivery Improvement Plan (SDIP) and to publish an annual statement of public service commitment which will set out the department’s service standards that citizens and customers can expect, and which will serve to explain how the department will meet each of the standards.

Format of disclosure

The following tables reflect the components of the SDIP as well as progress made in the implementation of the plans.

Main services and standards

Main services	Beneficiaries	Current/actual standard of service	Desired standard of service	Actual achievement

Batho Pele arrangements with beneficiaries (Consultation access etc)

Current/actual arrangements	Desired arrangements	Actual achievements

Service delivery information tool

Current/actual information tools	Desired information tools	Actual achievements

Complaints mechanism

Current/actual complaints mechanism	Desired complaints mechanism	Actual achievements

Organisational environment

Guideline

The annual report should provide users with an understanding of the organisational challenges and successes experienced by the department for the reporting period. The aim is to provide a description of any significant developments internal to the department that may have impacted on the department's ability to deliver on its Strategic Plan and Annual Performance Plan, for example, the resignation and/or appointment of key personnel such as the AO or the CFO, a strike by significant portions of departmental officials, restructuring efforts, significant system failures or cases of corruption.

Given that these are factors internal to the department and therefore ostensibly within the department's control, it would be expected that the department gives some indication of any measures that were adopted to mitigate the impact of these events on service delivery.

Format of disclosure

This information must be provided in a narrative form.

Key policy developments and legislative changes

Guideline

The department should describe any major changes to relevant policies or legislation that may have affected its operations during the reporting period. If there have been no changes this must be stated.

Format of disclosure

This information must be provided in a narrative form.

The department must report on all tabled Annual Performance Plans for the financial year under review. The minimum requirements below must be adhered to when reporting on each tabled Annual Performance Plan for the financial year under review.

This section must provide a narrative of the significant achievement of targets for the outputs and output indicators for each programme for the financial year under review. The narrative must also provide a summary on how the achievement of targets has contributed towards achieving the department's outcomes, which will invariably impact on the strategic priorities of government.

Furthermore, the department must detail per programme its response to prioritising women, youth and persons with disabilities in its service delivery environment, challenges encountered by the department when prioritising delivery for these designated groups, and the corrective steps that were undertaken in dealing with such challenges (where applicable).

A table must be provided where departments must report on outputs, output indicators and targets for each programme or every sub-programme. There must be a separate table provided to report on each tabled Annual Performance Plan for the financial year under review. The department must indicate the date of applicability of the revised Annual Performance Plan.

The table must include the following:

The following table must be presented with the relevant information and narrative information can be provided after the table.

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements table

Table 2.4.4.1:

To be used for a report against the originally tabled Annual Performance Plan until date of re-tabling (In the instance where a department has re-tabled an Annual Performance Plan in the financial year under review)

*Actual achievement must be reported in relation to the performance information reflected in the originally tabled Annual Performance Plan until date of re-tabling (In the instance where a department has re-tabled an Annual Performance Plan in the financial year under review).

Table 2.4.4.1 should be used by institutions that have re-tabled their APP. **Only** revisions to the original APPs must be reflected in this table. The revisions to the APP should be in relation to:

- Discontinued outcomes, outputs, output indicators or targets.
- Changes effected to the indicator title or output name or outcome.
- Changes effected to the targets.

In a case where an institution re-tabled more than once, the institution must repeat table 2.4.4.1 to report on outcomes, outputs, output indicators and targets that were revised in the re-tabled APPs, revised during the financial year.

The actual achievement in the table must only be for the period that the tabled APP was applicable (i.e., before re-tabling of another APP). For example, the achievement can be for one quarter or two quarters against the tabled annual target.
